Implementing Processes to Increase the Pipeline and Quickly Grow Revenue:

Manufacturing Case Study

The Big Win

Revenue increased by 66+% to $10 million within six months

> "Hiring a Sales Consultant has allowed me to see a path to retirement in the next 5 years and turn my focus back to leading the company rather than executing the day-to-day work. Through this engagement, we are now actively generating new revenue instead of waiting for the revenue to walk in the door."

STRATEGIC SALES SOLUTIONS

POWERED BY: SALES XCELERATION
STRATEGY | PROCESS | EXECUTION

Executive Summary

A $6 million metal fabrication company, in business for 23 years, had static revenue generation for the past several years with a small percentage of recurring revenue. The company needed an outside sales expert to put the systems and processes in place to increase revenue and put them on a path to be in a favorable position to sell in the future.

Challenges

- Stagnant sales for the past 5 years

- Only $1M in recurring revenue out of $5.5M to $6.5M in annual sales

- No dedicated sales resources, no sales plan and no measured business development activity

- No exit strategy, and the owner wanted to be in a position to sell in 5 to 10 years

Solutions

- Developed job descriptions

- Recruited and hired an experienced sales professional

- Selected and installed a CRM System

- Customized the CRM System to monitor key metrics, pipeline and sales forecasts via a dashboard

- Redefined focus to selling through architecture and engineering firms

- Developed a "Lunch and Learn" program that led to significant pipeline growth

Results

- Generated $200K in new revenue in only 3 months

- Achieved $10 million in pipeline revenue in 6 months

- Saved $25,000 in independent rep commissions (without any loss of performance)

- Reduced lead generation costs by 50%
